About Us

Our original designs best meet customer and market expectations.

Özgen Plastik has been a global leader in the production of plastic home and garden products since 1961.

Our products, manufactured using advanced technology and first-class raw materials, are exported to more than 90 countries across five continents, from Brazil to Sweden, Russia to South Africa, and Spain to Kuwait. Our original designs are meticulously produced to best meet customer and market expectations.

Adopting a system and corporate-focused structure,

our company aims to increase efficiency in operational processes using ERP and CRM systems. By combining past experience with innovative solutions,

we provide lasting and practical answers to our customers' needs.

We produce environmentally conscious and sustainable products

using recycled raw materials. Our vision is to continue offering practical, high-quality, and stylish products to our valued customers in the future

by increasing our product variety. We design every product with functionality and durability in mind. Özgen Plastik uses advanced

technology and first-class raw materials in its production processes. Our goal is to meet customer and market

demands with the highest quality, at the most economical prices, in the shortest time, and with the best

service. With over 60 years of experience, we continue to offer innovative solutions in the industry and design every product with functionality and durability in mind.

Our company, which operates on five continents, makes a difference in the industry with its global reach.

Özgen Plastik has established a solid position in the global market by reaching over 90 countries with our unique and high-quality plastic products. From Brazil to Sweden, Russia to South Africa,

and Spain to Kuwait, we have exceeded our customers' expectations with products designed specifically for different cultures and needs across a wide geography. Operating across five continents, our company makes a difference in the industry with its global reach. With our high-quality and reliable

service approach, we meet our customers' needs with our custom designs while enhancing brands' competitive strength through private

label production. We are positioned as a reliable supplier in the industry with on-time delivery and the necessary documentation.

Thanks to our constantly evolving designs and our focus on customer satisfaction, we offer customized solutions to our customers around the world. We ensure that we meet the highest standards in terms of environmental management and occupational health and safety.

At Özgen Plastik, we are committed to sustainability and environmental awareness. We hold ISO 9001,

ISO 14001, and ISO 45001 quality certifications and ensure our operations meet the highest standards in quality, environmental

management, and occupational health and safety.

We use recycled raw materials in our products and manufacture all our products to be recyclable. We have made it our mission to minimize our environmental impact while offering durable and long-lasting solutions.

Our product range includes: plastic stool varieties, plastic basket varieties, plastic shelf varieties,

plastic garden watering can varieties, plastic organizer varieties, plastic kerata varieties, plastic cabinet varieties, and plastic hobby table varieties.
